

Data Sheet

Product Information

Catalog Number	BP13360
Product Name	MLCK inhibitor peptide 18 acetate
Description	MLCK inhibitor peptide 18 acetate is a selective competitive inhibitor of myosin light chain kinase (IC ₅₀ = 50 nM). Displays 4000-fold selectivity over CaM kinase II and does not inhibit PKA. Cell permeable.
Targets&IC ₅₀	MLCK:50 nM
Synonyms	MLCK inhibitor peptide 18 acetate(224579-74-2 free base)
Chemical Formula	C ₆₂ H ₁₀₉ N ₂₃ O ₁₃
Molecular Weight	1384.67
Solubility	DMSO: Insoluble H ₂ O: 5 mM
Storage	Powder: -20°C for 2 years In solvent: -80°C for 1 year
