

Data Sheet

Product Information

Catalog Number	BP14995
Product Name	ARRY-797
Description	ARRY-797 is a potent and selective p38 α inhibitor and inhibits LPS-Induced IL-6.
In vivo	ARRY-797 inhibits the growth of RPMI-8226 Human Multiple Myeloma Cells. ARRY-371797 prevented left ventricular dilatation and deterioration of fractional shortening compared with placebo-treated mice.
Synonyms	ARRY-371797
CAS No.	1036404-17-7
Molecular Weight	N/A
Solubility	DMSO: 55 mg/ml
Storage	Powder: -20°C for 2 years In solvent: -80°C for 1 year
