

Data Sheet

Product Information

Catalog Number	BP16206
Product Name	β -Pompilidotoxin Acetate
Description	β -Pompilidotoxin Acetate is a wasp venom peptide. β -Pompilidotoxin Acetate can slow sodium channel inactivation and increase steady-state sodium current in cells.
Synonyms	β -Pompilidotoxin Acetate(216064-36-7 Free base)
Chemical Formula	C73H128N22O19
Molecular Weight	1617.93
Solubility	DMSO: 55 mg/ml (33.99 mM)
Storage	Powder: -20°C for 2 years In solvent: -80°C for 1 year
Chemical Structure OR Tested Image
